HIGH OUTPUT DETERGENT SOAP WRAPPING MACHINE

Technical Specifications

Output	240-300 Soaps Per Minute
Product Ranges	Length : 60-115 mm; Width: 50-65 mm Thickness : 13.5-33.5 mm
Machine Dimensions(LxWxH)	3450 x 1200 x 1800 mm approx.
Power Requirement	415 V, 50 Hz, 3 Phase & Neutral
Compressed air	2.5 lt/min of free air at 4-5 bar

HIGH OUTPUT DETERGENT SOAP WRAPPING MACHINE

MOI Engg. Ltd. offers revolutionary concept and state of the art, user friendly, safe, robust & slow speed-high production output machine...resulted from 40 years of machine building experience in research development and manufacture.

FEATURES

- ▶ 240 - 300 soaps per minute
- ▶ Optimization measures to limit recurring cost of consumables
- ▶ PLC based control with unique application software to ensure energy savings, process deviation alarm, fail safe logic and interaction with operator using Human Machine Interface
- ▶ Infinitely variable speed control using AC Drive
- ▶ Two way automatic print registration
- ▶ Integrated automatic product infeed system through Divider Unit
- ▶ Reduced product change over time
